

# 究極 TIGER

TAITO CORPORATION

# TWIN COBRA

In the tradition of ultra-high-intensity action games Taito brings you yet another top earning air combat video game — TWIN COBRA.

Just as its predecessors — Tiger Heli and Flying Shark — TWIN COBRA promises you nonstop action from the time the coin is dropped into the slot.

In addition to the high earnings and longevity one might expect, Twin Cobra has the additional dimension of allowing 1 or 2 players to play at the same time, thus bringing you even more earnings potential.

Pilot the helicopters with the 8-way joystick armed with machine gun fire and a limited supply of special bombs that destroys everything within its radius and meet the enemy head on and destroy him.

Collect the following items from the screen as they appear to:

POWER UP — Increases fire power.

INCREASE BOMB SUPPLY — Adds 1 bomb to your supply.

EXTEND PLAY — Awards an additional life.

BONUS POINTS — Awards 3000 points.

MULTIFUNCTION MARK — Collect this mark when it flashes red, green, blue, or yellow and arm you cobra with a laser beam, dispersed firepower, or the ultimate 4-way laser zapper.

Its time to face the challenge and get on board the TWIN COBRA to double your earnings potential.
